

## Leading Renewable Power Company

Brookfield Renewable U.S. is a leading owner, operator and developer of renewable power, delivering innovative solutions that accelerate the world towards a sustainable, low-carbon future. With renewable assets in 27 markets in 17 countries, we can serve your sustainability needs across the globe. Our extensive array of products and services in the U.S. are sourced from our diversified portfolio of hydropower, wind, solar, distributed generation and energy storage facilities. Our enduring commitment to the environment has been central to our business for over a century, making us an ideal partner for your journey to sustainability.

## Innovative Sustainability Solutions Provider

### RENEWABLE ENERGY SOLUTIONS DESIGNED AROUND YOUR NEEDS

Our diversified renewable energy portfolio – among the nation's largest – positions us to execute your sustainability goals, no matter how ambitious

### PARTNER FOR YOUR JOURNEY TO SUSTAINABILITY

Our team of dedicated energy experts works hand-in-hand with you to achieve your ambitious environmental and sustainability goals via customizable wholesale and retail solutions

### COMPREHENSIVE CAPABILITIES FOR OUTSTANDING RESULTS

Our deep energy marketing and trading expertise combined with our financial strength and renewable development capabilities equips us to provide a wide variety of sustainability solutions

### ENDURING COMMITMENT TO COMMUNITIES & SUSTAINABILITY

We partner with government agencies, diverse stakeholders, and over 300 charities to support local communities. Our renewable portfolio avoids 11 million metric tons of emissions annually

## Solutions at a Glance

### RETAIL SOLUTIONS

- 100% Local Renewable Energy
- Enhanced Additionality
- Onsite, Offsite Renewable Energy Integrations

### RENEWABLE DEVELOPMENT

- Utility-Scale Development and Construction
- Repowering
- Finance, Design and Planning

### HEDGING & TRADING

- Asset Hedging and Optimization
- Risk Management
- Physical Dispatch, Scheduling and Transmission

### WHOLESALE PRODUCTS

- Local Bundled Renewable Energy and RECs
- Load-Following Renewable Energy Supply
- Firming & Shaping of Renewable Energy Supply

### DISTRIBUTED ENERGY RESOURCE SOLUTIONS

- Localized Solar, Storage and Energy Efficiency
- Onsite Microgrid Solutions
- Full-Cycle Project Development

## Quick Facts

Leveraging 120 years of experience, resources and capabilities for exceptional sustainability results

**7,300** <sup>MW</sup>

Renewable generating capacity

**5** <sup>Technologies</sup>

Diversified across hydro, wind, solar, DER, storage

**120** <sup>years</sup>

Of experience

**740**

U.S. employees

**11** <sup>million</sup>

Metric tons of avoided emissions annually

**22,000** <sup>GWh</sup>

Clean power produced annually

# Leading Renewable Energy Provider in the U.S.

7,300 MW

190

Utility-scale renewable facilities

34 States

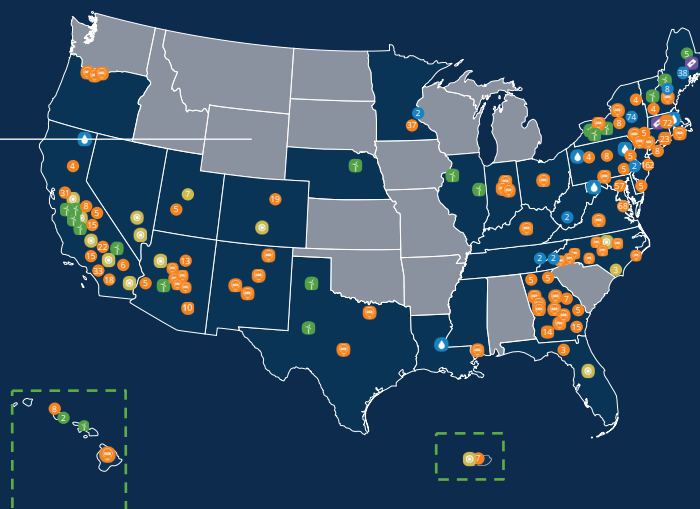

Extensive U.S. renewable portfolio

24/7

Renewable power capabilities

2 Million Homes

Produce enough electricity to serve the needs of 2 m homes annually

## Extensive Benefits of Our 100% Renewable Solutions

Our solutions sustain new and existing local renewable resources, creating jobs and other benefits that support local economies and communities while reducing the carbon intensity of the regional grid.

Champion Sustainability

Support Your Local Economy & Community

Choose Responsible Generation

## Diversified Operating Portfolio of High-Quality Assets

### HYDRO

Our portfolio provides emission-free baseload power and flood control while preserving aquatic habitat

3,150 MW

### DISTRIBUTED ENERGY RESOURCES

We operate over 4,800 on-site renewables, lowering fossil-fuel use and energy costs for customers

740 MW

### WIND

Our turbines harness world-class wind resources, providing reliable, competitively priced clean power

2,080 MW

### STORAGE

Our pumped storage and battery assets strengthen grid reliability and help integrate intermittent renewable resources onto the system

620 MW

### SOLAR

Our portfolio of utility- and distributed-scale solar facilities enable diversified solutions sized to your needs

670 MW

## Robust Renewable Development

Leveraging our in-house technical expertise, we deliver renewable energy projects from conception through development and operation. We oversee planning and construction to ensure projects meet best-in-class quality standards at competitive costs. We have a proven track record in managing large capital projects, with experience working with local agencies, communities and regulators.

● Solar ● Storage ● Wind
